

REQUEST FOR QUALIFICATIONS

Project No.: 18-163

**From
Construction/Project Management Firms
For the
New Hospital at Parnassus Heights**

University of California, San Francisco (UCSF) Health is seeking statements of qualifications for the New Hospital at Parnassus Heights (NHPH) project from Construction/Project Management (CM/PM) firms (Consultants) with proven experience providing CM/PM services for academic acute care and research hospitals in California.

CM/PM must be passionate about making a difference in healthcare and approaching all aspects of their work with the patient experience in mind. UCSF's goal is to find firms with individuals that can demonstrate the value that they can bring to this project through lessons learned, innovations to process and the ability to build a strong project community that will make this a highly successful project. UCSF is seeking individuals with demonstrated experience and leadership in Integrated Project Delivery (IPD).

UCSF has received a \$500 million commitment from the Helen Diller Foundation to support the planning, design and construction of a new, world-class hospital at the University's historic Parnassus Heights campus, ensuring that UCSF can continue to provide premier care to patients in the San Francisco Bay Area and beyond in the 21st century. The commitment will allow UCSF to begin the extensive planning process for an architecturally outstanding, energy-efficient, seismically sound, and environmentally sustainable hospital, which is expected to open its doors to patients before 2030.

Every effort will be made to ensure that all persons have equal access to contracts and other business opportunities with the University within the limits imposed by law or University policy. Each responding firm may be required to show evidence of its equal employment opportunity policy.

A complete RFQ package can be obtained from the issuing office through the online bidding system, Building Connected, after registering as a new supplier and completing the registration form through the following link:

<https://app.buildingconnected.com/public/5549acff1c9ba80b00866b7b>

Please contact Rebecca Palm-Song at rebecca.palm@ucsf.edu if you need further information or clarification of the RFQ process.

Responses to the RFQ are due by 3:00 PM, Thursday, January 24, 2019.
